Dear Valued Customer,

Platinum Technologies continues to develop new products to serve the commercial roofing industry and we are proud of the level of customer service we provide. We have also made great strides with the architects and consultants across the country in having Platinum products specified on thousands of projects.

As the cost of aluminum and copper has continued to increase we are implementing a price increase of 10% on all products effective on February 01, 2021

Thank you for your continued support.
