## To Our Valued Customers

### Subject: Sentry/Roofnado Ocean Freight Surcharge

Over the past several months ocean freight costs have risen so significantly that we find it necessary to implement an Ocean Freight Surcharge, effective immediately. All new orders received from today on will be subjected to the following per roll Ocean Freight Surcharge:

Anchordeck - \$3.00/roll  
StormTread XW - \$3.00/roll  
LapLock PSU HT - \$7.00/roll  
AnchorDeck PSU - \$7.00/roll  
Sahara Breathable - \$7.00/roll

In addition to the significant freight costs, container availability may effect lead times.

This surcharge will be lowered and ultimately eliminated as freight costs drop and begin to return to a reasonable level.

We appreciate your understanding and value your loyal support.

Sincerely,

Sentry Building Innovations
