June 24, 2026

Dear Valued Tremco CPG Customer,

Over the past several months, we have experienced ongoing increases in the cost of raw materials and other inputs required to manufacture and deliver our products. While we have worked diligently to offset these impacts internally, raw material costs remain elevated and increasingly difficult to absorb.

As a result, we will implement a price increase effective **August 24th, 2026**.

At the same time, we will eliminate our existing material surcharge program and incorporate those costs into our standard pricing structure to simplify the purchasing process and provide greater pricing transparency.

*Please note that tariff-related surcharges will remain in effect and are excluded from this change. Due to the continued volatility and uncertainty surrounding tariffs, these charges will continue to be managed separately and may be adjusted as conditions warrant.

Commercial Sealants & Waterproofing	All Products Not Listed Below	5%
	Silicones	3%
Dryvit	Dryvit Products	3%
Nudura / LiteForm	ICF Products (Floor/Decking, Panels, Forms, Bracing)	5%
	Framing Products (Prebuck)	5%

*The examples listed are illustrative and not exhaustive.

Orders placed prior to August 24th, 2026 and shipped within our standard lead time will be invoiced at current pricing. Orders placed on or after August 24th, 2026 will be invoiced at the new pricing.

We sincerely appreciate your business and thank you for your continued partnership.

Sincerely,

Dency Barnes
